							0 - 21/2			
Description	Strategic Theme / Priority	19/20	Revenue 20/21	21/22	19/20	Capital 20/21	21/22	Comments	Term	Funded From
<b>Transforming Customer Services</b> - To make the necessary alterations to the Civic Centre reception area to ensure it is fit for purpose for face to face contact with the customer	Councils budget proposals and MTFS include a savings target to be achieved through relocating the CCC				110,000		0	Moving the CCC is a stand-a-lone project but it is inextricably linked with the Council's ambition to channel shift providing access to services 24/7 online, but It will also ensure customers are our focus removing the disconnect between the current Market Cross location and the civic centre. CCC staff will be able to more easily discuss customer issues with service areas and service areas will reconnect with their customers increasing the accountability of each 0 business area to manage customer experience. Negotiations with Dransfield (the Landlord) have commenced to seek an alternative tenant for the property from July 2019. (the earliest date a move could take place) Based on indicative costing provided and based on exiting the lease, Payback on the capital investment required to alter the Civic Centre reception could be achieved within 2 years. The full year saving on this will be £220k per annum from 20/21 which will contribute to the asset rationalisation and transformation savings identified within the savings plan	One off	Asset Mgmt
Net Cost of Bid		0	0	0	110,000		0	0		
Implementation of CivicaPay -Initial software licence					11,100			- The ability to take payment online (epayments) is a central strand of the Council's Digital Strategy. It is cheaper for the Council and often more convenient for the customer - who now expect to be able to transact with service providers 24/7 - SDC currently use Northgate Paris Software to process epayments, currently running at almost 4000 transactions per	One off	ICT
-Conversion of existing PARIS solution to CivicaPay					25,000			<ul> <li>month. the 2 main drivers for using an alternative provider are</li> <li>1 - Paris is not compliant with PCI-DSS regulations. There are considerable fines associated with non-compliance following data compromise (from ten to hundreds of thousands of pounds).</li> <li>2 Paris has been bought by Civica and is being phased out. it is expected to become unsupported within 18 months.</li> </ul>	One off	ІСТ
-50,000 transactions p/a	ICT Strategy 2018-2020 sets a programme for delivery of a digital workforce Success would be demonstrated by the increase number of services available to customers to complete transactions online and the measured	3,500	3,500	3,500				<ul> <li>The proposal is to move from Paris to Civica's own epayments software - Civica Pay</li> <li>CivicaPay is used in over 150 local authority sites, serving over 15m UK citizens, processing 16m payments annually, a service with 99.99% availability. By implementing the hosted e-payments and income management solution this will</li> </ul>	Perm	Revenue
-Hosting	'take up' of customer transactions.	6,000	6,000	6,000				help SDC deliver greater automation, efficiency gains and cost savings whilst at the same time providing service improvements to the customer working towards the Digital Transformation agenda. Replacing microphone system in the Council Chamber	Working with others and co-developing the way in which services are		6,000	6,000				The current microphone system is very out dated and has now become not cost effective to repair the faults that occur due to the excessive costs of repair. This is further compounded by the fact that there is no maintenance contract. There are now only 37 working microphones which does not even equal the number of Members on the Council which is 31. If any more microphones stop working, it would have a major impact on Council meetings with particular concern over public involvement and the ability to understand the business which goes on in meetings. This presents a great risk on the Council's reputation with the public and with Members. A more robust and modern system is required that can also able the feature of electronic voting. This feature now comes as standard in many modern systems and is a feature	Perm	Revenue
Replacing microprione system in the Council Chamber	delivered				40,000			<ul> <li>at many other authorities. A new system also gives the Council an opportunity to explore other functionality such as audio recording of meetings which can assist the decision making process.</li> <li>Currently, estimated process have been sought from companies and if the bid is approved, a more detailed specification will be compiled.</li> <li>This bid meets the Council's priorities by working with others and co-delivering the way in which services are delivered. This work will help to continually improve value for money in the business.</li> </ul>	One off	ICT
