## SAVINGS PLAN

## Indicative Cumulative Profile - GF

Potential Saving	Sponsor	2018/19 Target £000's	2018/19 Forecast £000's	Q3 December 2018	Current Risk
Pest Control	KC	15	15	Completed	Low
Income generation	SR	0	0	Fees and charges are under review as part of the budget process with limited opportunities in 19/20 and further opportunities to be identified from 20/21 onwards . There will not be any additional income from fees and charges in the current year.	High
Process improvements /on-line transactions	JS	70	42.5	Channel shift and housing system projects have been approved. Work has been undertaken that has identified the savings and there is confidence that the target for 19/20 will be exceeded. Current year may see a shortfall due to timing in project delivery, but vacancies are being held to mitigate this in year.	Medium
Planning service review	JC	200	60	£60k of recurring savings have been proposed for 18/19. There are no overall savings from the planning function in the year to date due to overspends on agency staffing which are being addressed, so this has been put in amber in the forecast. There has been an increase in income this year, which will help to mitigate some of this short fall in the current year only. Potential for further savings in 19/20 looks challenging so the target in the revised budget has been reduced to £100k.	High

## SAVINGS PLAN

Asset rationalisation	JS	90	28	Ex Profiles Gym has been let to a tenant generating £28k in 18/19. The remainder of this saving is dependent upon the contact centre move from Market Cross and Police Co-location. The extension to accommodate the Police and the contact centre (telecoms) will be completed by March 2019 some changes to the Civic Centre to accommodate face to face customers will take place in April 2019. Negotiations are ongoing with the landlord of Market Cross to realise the savings in rent. The Police move will take place in April which will generate £69,000 in rent and service charges.	High
Commissioning & collaboration	JS	0	30	The savings expected in 2019/20 have been identified as part of the budget process. The 18/19 target will be met through the work done by another local District Council.	High
New SDHT Loans	DC	17	18.3	Loans currently made to the Selby District Housing Trust will generate £18.3k of interest returns in 2018/19. A number of schemes are currently in progress, with negotiations taking place with developers with a scheme to acquire 12 S106 affordable housing properties recently agreed between SDC and the SDHT at Ulleskelf. The revised and expanded Housing Development Programme agreed by Executive in January 2018 identifies a significant role for the SDHT in delivery which will provide further loan opportunities for SDC. Forecast has been retained at the level of current existing loans, but there is scope for new loans to be made during the year.	Medium

We have now committed to replacing a small number of doors and windows prior to Christmas, with the bulk of the programme commencing late February/early March 2019 and running through in to 19/20. This will dovetail with the increased capital bid approved by the Executive (subject to Council approval). A carry forward will be submitted for the committed funds in due course

Based on previous year's it is anticipated that there will be an underspend on this budget of circa 25% which we will seek to roll forward as in previous years. Looking at the current asset profile, it is envisaged there will be a peak in spend in 22/23. We are seeking to smooth this spike through proactive replacement.

Progression of works to replace the roofing across the scheme will be subject to the findings and recommendations of the report. It is anticipated the assessment will be completed in January 2019 and funds committed to the required improvements thereafter.
Laurie Backhouse Court	28,000	21,000	-10,231	-31,231	43,000	15,000	Original quotations to replace the lift exceeded the available budget by circa £15k. Additional funds will need to be secured in order to complete these works. Additional forecast updated pending Virement signoff Due to the time which has elapsed since the initial tender process was completed, updated pricing to be obtained from the market prior to commissioning the works. It is expected this will be received in January 2019 and an order issued shortly thereafter. The works are currently envisaged to be completed in 18/19. A virement form to cover the expected shortfall in funding will be submitted once the revised pricing is received.

Empty Homes	June Rothwell Simon Parkinson	115,475	115,475	15,427	115,475	0	Overall the project is progressing well and there have been some good early results and the Empty Homes Officer has directly helped bring empty homes back into use by offering advice and assistance to owners. Homes England Grant funding has been secured to support the options of voluntary and compulsory purchase. A total of £390,000 has been secured, subject to individual business cases for the properties, to purchase and repair the empty homes, bringing them to a habitable standard. This indicative funding is to bring back in to use 10 empty properties up to 2020, providing up to £39,000 per property. We are currently pursuing our first Compulsory Purchase Order and a report will be taken to executive in December 2018. The process can be long and quite complex but a successfully CPO will send the message that this is a priority for us. We can also use the funding to purchase 'right to buy' buy backs and this is something we will consider on a case by case basis.

This will inform the creation of a comprehensive masterplan for the development of the whole site. This evidence base and masterplan will support the submission of a planning application. The Council has a dedicated project manager to lead the delivery of this key site. We are also continuing to work with our legal and property advisers to explore strategies for the delivery of the site, ensuring we maintain a number of options.
