RECEIVED

Dear Sharon Cousins,

At a recent meeting with proprietors of the taxi members the attached proposals were favorable with a large number of taxi drivers. A lot of time & thought had been put into this tariff structure by both myself & _____, taking into account price increases in fuel, insurance, licence fees, etc, etc.

Also making sure that we remain around the national taxi fare average but remaining UNDER price level of our neighbors, YORK.

Mr Brown will be sending you further information shortly.

Regards

No

If you answered yes to the question above, please specify the percentage increase you suggest:

50p on ^{all} ~~the~~ cabbys and 10p
on the mile to all except bus should
be 20p on the mile.

I propose a weekend Sick Carriage
Monday - Thursday £70
Friday, Saturday, Sunday £150

Most people who are sick on a weekend are
wasted and got them self in that state.
to get a valet last minute on a weekend
is £80/£100 never mind loss of wages.
I shouldn't make a loss because of alcohol. →

I think we need more guidance on
Garrif 5/ as if a family of 4
with shopping and a pram wouldn't fit
in a car and need more space
I should be able to Garrif 5
as they couldn't fit in a car,
not just how many bums on seats.

Sharon Cousins

To: Sharon Cousins
Subject: card payment

[REDACTED]

Also to look at been able to charge tariff 5 fir other reson then just 5 bums on seats.
i.e family of 4 with 2 push chairs and shopping that chose to use a bus over a car. and would need this
putting on tariff card.

if you could have a look and get back to me
