

Selby District Council Taxi Licensing Policy:

6.4. Definition of wheelchair accessible vehicles

Wheelchair access and egress may be made via the side doors or rear doors. All vehicles that are wheelchair accessible must be so constructed as to facilitate the carriage of people with disabilities. It must be capable of accommodating a wheelchair user in a wheelchair in the passenger compartment, provided that the wheelchair fits either facing forwards or rearwards as recommended by the Disabled Persons' Transport Advisory Committee and the Medical Devices Agency. Under no circumstances must the wheelchair be placed sideways in the passenger compartment.

Approved anchorages must be provided for the wheelchair and the wheelchair user. These anchorages must be either chassis or floor linked and capable of withstanding approved dynamic or static tests. Restraints for wheelchair and occupant must be independent of each other. Anchorage must also be provided for the safe stowage of a wheelchair when not in use, folded or otherwise, if carried within the passenger compartment. They must be designed so as not to cause injury to other passengers.

A ramp or ramps for the loading of a wheelchair and occupant must be available at all times for existing wheelchair accessible vehicles. The entry must be either via the nearside passenger door or via the rear. An adequate locking device must be fitted to ensure that the ramps do not slip or tilt when in use. Provision must be made for the ramps to be stored safely when not in use.
