

**11.3** Proposed by Councillors Jordan, John McCartney, Mary McCartney, Nichols, Packham and Steve Shaw-Wright.

**Council notes that:**

Our economic system is enriching a minority while leading humanity towards climate catastrophe. Our political system is leaving many to feel powerless and excluded from the key decisions that affect them;

In 2018, the world's leading climate scientists—the IPCC—warned that humanity has only 12 years left in which to cap temperature rises at 1.5C or face a sharply higher risk of drought, floods and heatwaves;

The UK Parliament has approved a motion to declare an environment and climate emergency, and all governments (national, regional and local) have a duty to limit the negative impacts of climate breakdown;

Local governments should recognise that they cannot wait for national government to provide more money and support to reduce emissions, and commit to the ambition of carbon neutrality by 2030 at the latest;

Our emissions are a small proportion of our area's CO2 emissions and that we achieve more for our environment working co-operatively than we do alone.

Every year, our area spends significant amounts on energy. This money goes out of the local economy to the big energy companies when we believe that it could be retained through community energy—and that community energy is a fundamentally important part of the national energy transition we are undergoing right now.

**In light of the above, Council therefore agrees to:**

1. Join other Councils in declaring a Climate Emergency, and commit to the vision of carbon neutrality by 2030 at the latest;
2. Continue to call on Westminster to provide the necessary powers and resources to make local action on climate change easier;
3. Encourage this Council to explore the expansion of community energy to keep the benefits of our local energy generation in our local economy.
4. Continue to work with partners anchored in the area to deliver carbon reductions and grow the local economy.
5. Council Tasks Policy Review Committee to lead on the development of the Council's policy, and make recommendations to Council at the earliest opportunity as to how we can best implement the aims of this motion.
