IMPACT REPORT FOR PERIOD JANUARY. TO JULY.

Q1 In no more than 500 words please outline the key outcomes of your project.

We have been able to provide each participant for two trips so far. One to Mount Grace Ruiny + Turisk. The other to Liverpool. It is planned for us to organise a trip to Howwood House near Christman so that people can see the House like up for Christmas and do a little shopping.

Q2 In no more than 500 words please demonstrate how the project has met the Community Development Plan objectives that were identified in the original application for funding.

We were able to organise trips out for people who otherwise do not have the opportunity to visit places further afield from the local town. Mount Grace Ruiny has historical interest, gardens to walk around for the more able, and to sit in and enjoy the views for the less mobile. There is a museum in Turisk and shopping in individual shops, a big change from high street stores. Liverpool has a host of different places of interest: Museum, Cathedral, the water front etc all accessible using the Hop on Hop off City Tour Bus. So that people with limited mobility could still enjoy themselves.

Q3 In no more than 250 words please give details of any additional benefits or objectives that the project has met that were not anticipated/ outlined in the original application for funding.

Because the class was provided meant we could hire a big coach and invite other people to join us. We could then charge for the full fare and use the money to go to the fund you provided so that it will go further. Having other people join us meant that there was more social interaction which is good for people who are lonely.

Any other comments on the project and its success:

We would just like to say thank-you for ~~the~~ giving us the opportunity to provide these services & we are going to run a bonfire at our local village hall, and these notices will also go to the fund.  
I enclose copies of the coach hire notice for the bus trips we have already been on.
