1. Whole of Government Accounts 2017/18, National Audit Office, May 2019

The Whole of Government Accounts consolidates the accounts of over 8,000 bodies across the public sector, including central and local government and public corporations such as the Bank of England, to produce an accounts-based picture of the UK's public finances. It sets out what the government receives, pays, owns and owes.

The headline results in WGA 2017/18 show income of £760.9 billion (2016/17 £720.8 billion), expenditure of £814.8 billion (2016/17 £760.7 billion). After financing costs are taken into account, the net expenditure for WGA is £212.4 billion (2016/17 £97.8 billion). On the Statement of Financial Position, WGA shows total assets of £2,013.8 billion (2016/17 £1,903.0 billion), and liabilities of £4,579.2 billion (2016/17 £4,323.7 billion).

The 2017/18 WGA has been qualified as a result of qualifications in underlying accounts and as a result of issues relating to the boundary, non coterminous year ends, and accounting policies applied by the Treasury when carrying out the WGA consolidation.

2. Consultation - new Code of Audit Practice from 2020, NAO, May 2019

Schedule 6 of the Act requires that the Code be reviewed, and revisions considered at least every five years. The current Code came into force on 1 April 2015, and the maximum five-year lifespan of the Code means it now needs to be reviewed and a new Code laid in Parliament in time for it to come in to force no later than 1 April 2020.

The consultation is taking place in two stages. The first has concluded and the second will be undertaken in the second half of 2019. The NAO plans to consult on the draft Code text during late summer/autumn and then finalise the Code by the end of 2019, ready to be laid in Parliament early in 2020. The new Code will apply from audits of local bodies' 2020/21 financial statements onwards.

The first stage of the consultation showed broad support for maintaining the principles-based nature of the Code, being the wider scope of public audit, independence and public reporting. However the responses highlighted that this should be supported by more detailed sector-specific guidance.

Value for money arrangements

The 2014 Act places a specific duty on the local auditor to be satisfied whether the body they are auditing has proper arrangements in place to secure economy, efficiency and effectiveness in its use of resources. In the current Code, this is referred to as work on arrangements to secure value for money (VFM arrangements).

Currently, the auditor reports against a single overall criterion as to whether: "In all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people."

There were three common issues identified, namely:

- · financial sustainability;
- · financial governance; and
- · wider partnership working.

The NAO plans to consider how the auditor should report their findings on the adequacy of arrangements, and whether this should be replaced, or supplemented, by a commentary on the specified risks set out in auditor guidance.

3. Local audit quality forum June 2019 slides, Public Sector Audit Appointments, June 2019

The local audit quality forum meeting place in which all of the parties which share a responsibility for audit quality can share experiences and good practice. The June 2019 slides are now available as per the link below. The forum addressed 'practical help for Audit Committees', including the following:

- what should the Audit Committee look for in the financial statements?
- · what is it like being an Audit Committee Chair;
- support for Audit Committees from CIPFA;
- how can Internal Audit help the Audit Committee to deliver its remit;
- support from the Local Government Association for Audit Committees; and
- new Code of Audit Practice consultation.

The next event is in November 2019. Local bodies, including Selby District Council, which have opted into PSAA's national scheme are entitled to attend LAQF events free of charge (up to two delegates per body).

4. A practical guide for Local Authorities on Income Generation (2019 edition), CIPFA, July 2019

CIPFA's revised income generation guide reflects on the income generation issues of 2019 and the changes that are being made.

The issues that are examined in this publication include:

- the need for thorough testing and business cases to robustly assess income proposals;
- · the impact of the 2018 MHCLG Statutory Investment Guidance; and
- how the pattern of local authority income is changing.

The guide will allow councils to maximise their income potential against a backdrop of Brexit uncertainties and other economic changes. With more authorities relying on income generation to balance their budgets, the guide can help finance staff stand at arms-length to ensure councils act prudently.

The publication also has practical guidance on income generation for different service areas and there is a full coverage of discretionary charging rules.

5. Rethinking Social Value: Unlocking Resources to Improve Lives, Mazars, June 2019

We have been taking views from our clients in the public and not-for-profit sectors on how social value is defined, delivered and its impact on communities. We are pleased to share the results of this research in our brand new report: 'Rethinking social value: unlocking resources to improve lives'. The report focuses on:

- the opportunities around social value;
- leadership, communication, and building support;
- case studies highlighting innovative approaches in charities, not-for-profits and private sector partnerships; and
- how to measure the impact of social value.

6. Spending Round 2019: on the day briefing, Local Government Association, September 2019

Briefing issued by LGA in early September.

Key messages

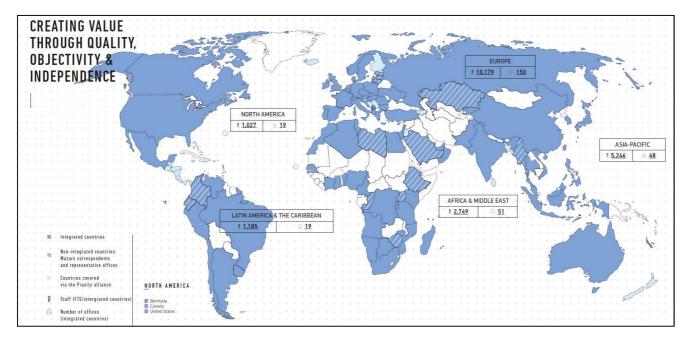

- The 2019 Spending Round has provided councils with much of the funding certainty and stability they need for next year. The Chancellor has announced a funding package of more than £3.5 billion for vital council services. This is the biggest year on year real terms increase in spending power for local government in a decade. This funding will allow councils to meet the increase in cost and demand pressures they face in 2020/21, which we assess as amounting to £2.6 billion.
- We are pleased the Government has responded to our calls and provided desperately-needed new money, including £1 billion for social care and £700 million for children and young people with special educational needs and disabilities. The Chancellor confirmed that key grants to local government will also continue next year.
- With this investment councils will be better able to ensure older and disabled people can live the lives they want to lead. Councils will also be better able to support our most vulnerable young people, and to continue to improve their local areas.
