

## **Public Questions**

### **7.1 – Question submitted by David Bowgett**

To ask the Lead Executive Member for Housing, Health and Culture

*“In the past, Selby District Council’s policy with regards to public toilets has been to encourage businesses to make their toilets available, rather than providing purpose-built facilities. Is this still the council’s policy, and if so, do you believe it to be an adequate one, particularly when it comes to meeting the needs of handicapped people?”*
